

Consultation Response from WY Archaeology Advisory Services
2024/91996 Land at, Penistone Road, Fenay Bridge, Huddersfield, HD8 0AW
Discharge of details reserved by conditions 7 (Phasing Plan), 8 (Phase 1 SI), 9 (Phase 2 SI), 12 (Highway Condition Survey), 13 (CEMP), 14 (Construction Environmental Management Plan: Biodiversity), 16 (Trial Trenching), 17 (Retaining walls adj to highways) and 19 (Temporary Surface Water Management Plan) of previous permission 2022/93154 for erection of 68 dwellings with associated access, parking, open space, landscaping and infrastructure works (including installation of surface water attenuation tank)
Date Responded:21/10/24
Responding Officer: Glyn Davies (Senior Archaeological Officer WYAAS)
Responding Ref:

I have looked through the Fenay Bridge Trial Trenching report (XL52 Fenay Bridge TT Report v1red). The report outlines the results which were three ditches one of which contained modern material, and all the ditches aligned with some of the surviving field boundaries. The archaeological potential of the identified features is therefore negligible to low and no further work is recommended.
