I think its a good idea to build a new school if it benefits others and the kirklees council the only objective i have is the planning of the entrance it woukd benefit the residents and the taxis and any other vehicles that have to go in to the school if the entrance was moved further down past the houses and have the entrance and exit in the same area then us residents wont have the trouble of asking people and taxi drivers not to block our driveways like we have had to do in the pasts also we wouldn't have to park our cars up out of the restricted parking area those that dont have a drive way or more than one car thankyou
