

Urban Green Space

Policy LP61

Development proposals which would result in the loss of urban green space (as identified on the Policies Map) would only be permitted where...

- a. an assessment shows the open space is clearly no longer required to meet local needs for open space, sport or recreational facilities and does not make an important contribution in terms of visual amenity, landscape or biodiversity value; or
- b. replacement open space, sport or recreation facilities which are equivalent or better in size and quality are provided elsewhere within an easily accessible location for existing and potential new users; or
- c. the proposal is for an alternative open space, sport or recreation use that is needed to help address identified deficiencies and clearly outweighs the loss of the existing green space.

The protection set out in this policy also applies to smaller valuable green spaces not identified on the Policies Map.
