<p>I live adjacent to the proposed application. I note that there is access for parking and a slight extension of the current building boundary. I would like to ask how high the proposed building will be? Also as to what will be built at the front roadside i.e at the boundary between the land and the road. The reason I raise these is because I need to be able to see up the road so I can safely pull out of my drive and I want to make sure the visibility remains adequate.</p>
