

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Joel Farrar
Site Address	8 Summerbridge Crescent, Gomersal, Cleckheaton BD19 4LW
Description of Development	Two storey side extension

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
<ul style="list-style-type: none">• Additional insulation to wall fabric to exceed minimum requires in Part L of the building regulations.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
<ul style="list-style-type: none">• Recycling of materials where possible.• Locally sourced material to reduce carbon footprint.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)
<ul style="list-style-type: none">• Energy efficient fittings and fixtures.

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

- Additional insulation to roof and floor areas than required in Part L of the building regulations.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

N/A

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

- Low flood risk area.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

- Retention of existing garden area.
- Implementation of more planting and garden landscaping to compliment the development.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

- Retention of existing planting and grass in garden area where possible.
- Locally sourced materials.
