<p>New structure is directly adjacent to my property, this would have an effect on my living conditions, looking at the plans the height of the building would compromise natural daylight. The trees overhanging my property (which Kirklees are responsible for) so having a building of that height I would no natural light at all, so having to have lights on in the house during the day impacting on my bills.</p> <p>Height of building will take away the view we have from the upstairs window looking out across the valley.</p> <p>Noise- Having a building so close to my property, when operating machinery would be a noise disturbance all day from 7.30-4.30.</p> <p>Application says temporary building - how long will it be there for?</p> <p>Will the working hours remain the same or are they planning to extend because of the new building.</p> <p>Building so close to property possibly could attract vermin if it's used for storage.</p> <p>Approving the application would possibly have an affect on the value of my property.</p>
