<p>Based on the master plan LUF approval, the granting of a change of use for this particular site to a restaurant would go against the principles of the BID, which aims to attract a variety of retail outlets to Batley town centre. The main emphasis of the campaign and the BID is on attracting new types of customers to Batley town centre, thus enhancing its wider appeal. Granting this change of use would contradict the transformational plan that has already been submitted and approved by the local and National government.</p> <p>Furthermore, the town centre is experiencing dangerous parking conditions, which are affecting public safety. Approving such an application would add to the existing concerns of visitors to Batley town centre.</p> <p>I truly hope that the town planners adhere to their own master plan and refuse this application.</p>
