To whom it may concern at Kirklees Council Planning

Regarding planning application ref: 2024/92146

Site: Pule Hill Farm, Manchester Road, Marsden, HD7 6NJ

Dear Sir/Madam

I am writing to support the above planning application.

- I consider the garden room to be in keeping with the local area and uses local materials fitting with other buildings traditional buildings around it.
- The building has no effect on amenities - water is from a spring and power is by solar and biomass.
- The building does not overlook any neighbour and does not represent any loss of light.
- The building has no safety issues and does not represent any visual intrusion, causes no noise, no disturbance, no smell, no overshadowing or detriment to any right of way.
- The area surrounding has been improved by addition of trees and wildflowers and is a benefit to the natural habitat for birds, insects and animals. Birds and squirrels are now abundant in the area, previously there were none. The building also has bats around it and there are signs that they may be living in the roof space.
- If the planning application is refused it would be a great waste of resources and cause significant financial hardship to the Hanson family.

- Immediate neighbours have placed shipping containers on their land to provide additional storage this seems to be considered to be fine. I feel this application represents a much more appropriate development.
