<p>I moved into Phase 1 of Hillcrest View in 2021 around a year or so before construction began on these (if I recall correctly) and our house looks back onto the houses in question in this planning permission. The houses are wonderfully built and we have no objection to them being there whatsoever. They fit with the design and aesthetic of all the phase 1 houses and as ours is one of the smaller houses, I believe this adds extra value and character to the street. As a father with a young son it's great to see other families with young children have moved into these properties and our children will be able to play safely on this street together in the future. As mentioned before, they are fantastic looking houses that enhance the local area and are barely noticeable from the surrounding area due to where they are constructed. They have not added any extra issues logistically in terms of traffic since the construction. I would be very worried to what would happen to the families living in these houses and the area behind my house if this planning permission is not approved especially as my house looks over it</p>
