

**Consultation Response from Mike Hibbert,  
KC Waste Strategy( Refuse & Recycling)**

**2024/92153 Land to the south of, 5-25, Clay Well, Golcar, Huddersfield, HD7 4FD**

**Erection of 13 dwellings with associated access road and landscaping**

**Date Responded: 17/09/2024.**

**Responding Officer: Mike Hibbert**

**Responding Ref: WPS 24-047**

## **NOTES/COMMENTS:**

The following comments are made without prejudice and purely from the point of view of the Waste Collection Authority. They are intended to help create an environment that functions safely and efficiently for waste management; and reduce the negative impacts of bin blight on the neighbourhood. Addressing these will also enable the proposal to better meet the policy requirements of LP24 part d (vi), LP43 and the Kirklees Highway Design Guide SPD in respect of refuse collection. Ultimately this will be to the benefit both residents and the Authority for the life of the development.

The application is for Retention of 13 No. dwellings with associated access road and landscaping (Part retrospective).

The WCA has previously been consulted in relation to the road layout, waste storage and collection arrangements at this development.

The applicant has submitted Proposed Site Layout R-0873-60 Rev C Proposed Site Layout Dated 10.07.24. This plan shows the location of bin storage (other than Plot 3) for each property.

The comments provided in Consultation responses WPS 22-07 dated 15/3/22 and WPS 22-13 dated 20/04/2022 for application ref 2021/91384 are no altered due to the submission of this application.

The WCA therefore has no additional comments.
