<p>I am in support of the application as this is a development that runs alongside a previous development by the same builder where planning was granted. I am aware the builder did not stick to the original plans that were approved however the differences aesthetically are minimal and in my opinion do not cause any offence to surrounding houses or detract from the homes being in a conservation area. These are well built family homes that are much needed in the Golcar area. They are not dissimilar to those built in phase 1 of the development and so I fail to see why planning have such strong options on phase 2. Families have bought the homes in good faith, myself included, and so I hope the plans submitted will be granted permission so we can all enjoy our homes and the surrounding area, which we have come to love</p>
