<p>Queens Road will be the main access for these new houses and presumably also for the plant, machinery and supplies needed in the building process, also.</p> <p>Queens Road is already in an extremely poor state with many potholes, cracks, and a patchwork of re-surfacing.</p> <p>Will Queens Road be made good as part of the development, so that it will be more robust and long lasting for the greatly increased traffic this development will cause?</p> <p>If not, there will be a negative impact of the increased traffic on current and future users of the road.</p>
