Further to a conversation with the planner and the discussion of the path through the POS, prow has measured these and they are showing as 2 metres.

The provision of alternative routes from the extinguishment and provision of new routes order appears to match.

Prow has checked the alignment of the current proposal (the same as in Anite 13/3/24 2489-1-001) with the previous permission and the order plan prow are satisfied that the route are a close match, except for the access where it meets Queens Road. However, this when built will be part of the Highway maintainable at public expense.
