

**Consultation Response from KC,  
Trees**

**2024/92236 Wood Street Mills, Wakefield Road, Scissett, Huddersfield, HD8 9JS**

**Demolition of existing industrial building and erection of storage and distribution building with car park and associated engineering works**

**Date Responded: 12/09/2024**

**Responding Officer: JD**

**Responding Ref:**

There are no protected trees on site.

There largely seems to be no impact on any trees to the north section of the site, however the demolition and re-building of the southern section appears to have a large impact on the surrounding trees.

An Arboricultural Impact Assessment (AIA) would be required to judge the level of tree work required to facilitate the proposals and Arboricultural Method Statement (AMS) would be required to detail the methods and steps taken during construction to protect the surrounding trees.

There is a **holding** objection from a trees perspective until the suggested tree information is submitted.
