To Whom It May Concern

**Section 154 Highways Act 1980
Hedges, trees and shrubs overhanging roads or footpaths**

I have visited your land on the Southeast Side of Woodhead Road, Holmbridge, Holmfirth and have observed that vegetation on your land is overhanging the highway, Lower Mill Lane, to such an extent that it may cause danger to road or footpath users for one or more of the following reasons:

- Endangering or obstructing the passage of vehicles or pedestrians
- Obstructing or interfering with the view of drivers

Please can you lop or cut back the vegetation to your boundary, so it is no longer overhanging the road or footpath. Please see the attached map with the location marked with dotted lines, and images of the vegetation.

If you require further information or are not the responsible party, please do not hesitate to contact me using the above email address.

Kind regards
