Subject: Planning Application 2024/92299

Dear Ms Jackson,

Spen Valley Civic Society wishes to make a comment about the above application. We apologise that we did not submit it before 20th September, but our meeting was held later than that date. We'd be grateful if our comment could be included.

"Spen Valley Civic Society supports this application because it provides extra housing in the centre of Heckmondwike, which is essential to help revive the town centre. We would ask that the conversion complies with minimum space requirements. It needs to be properly insulated for warmth and sound, to safeguard residents' amenity, given that there is an extremely busy road junction and traffic lights outside, and two pubs within 50m of the property."

Thanks and best wishes,

Secretary Spen Valley Civic Society
