Responding Ref:

There are no protected trees on this site.

All arb documentation submitted sufficiently shows the impact and protection measures taken throughout the entire process and this is broadly acceptable.

The proposed removal of T11, T12 and T13 will be mitigated with replacement planting somewhere on site however details of the replacement planting is not evident. Providing the replacement planting is like for like in terms of species this shouldn't be a problem as T11, T12 and T13 are all street trees in tree pits.

No further comments and no objections.
