**Subject:** Re: Two major planning applications received within Crosland Moor and Netherton Ward.

I agree with Councillor Safdar's concerns regarding infrastructure and would welcome some assurances that this will be addressed. I also have concerns regarding Chemical waste on the site including asbestos which has been identified and remedial work has been recommended along with further testing (Geo-Ecological report page 4). Can we have assurances that this further testing has been done and links to the results?

Best wishes

Alex

Cllr Alex Vickers

Green Party Councillor for Crosland Moor and Netherton
