<p>I object this planning application on the grounds that the conservation of wildlife will be hugely effected by this development, we have barn owls, deer, birds, rabbits / hares and foxes which will be displaced.</p> <p>Secondly, we have trees, bushes and foliage that will have to be removed creating the addition of Co2 within the atmosphere, adding 200+ houses will then create additional pollution to the area damaging the natural environment and species of animals.</p> <p>Thirdly, we have lived in our home a year and we had to take out specific flood protection when we aquired our mortgage as there IS a flood risk within this area so I am baffled as to how 200+ homes are exempt from this.</p> <p>Lastly, the access requirements will not only create more traffic to an already busy area but again drive away wildlife and infrastructure will require more up keep from an already money and resource lacking council.</p> <p>Logistically and environmentally this development should not be going ahead at all.</p>
