

**KIRKLEES METROPOLITAN COUNCIL
INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2024/62/92397/E
Site Address:	Clough House Lodge, Wakefield Road, Scissett, Huddersfield, HD8 9LE
Description:	Erection of detached garage with workshop below
Recommending Officer:	Jennifer Booth

DECISION – Full Conditional Permission

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Kirsty Nicholls

AUTHORISED OFFICER

Date: 26-Feb-2025

OFFICER REPORT

Site Description

Clough House Lodge is a stone built dwelling with a single storey appearance from the lane. The dwelling has a lower level to the rear and rooms in the roof space. The property has a paved area to the front, sloping garden to the side and lower garden to the rear.

The site is located in the Green Belt and the surroundings are rural with open fields surrounding for the most part. There is a pair of semi-detached properties on the opposite side of the road, further to the east.

Description of Proposal

The application is seeking planning permission for a detached outbuilding.

The width of the garage would be 3m with a depth of 6m. The roof form would be pitched and there would be a lower level workshop area under part of the building.

The bulk of the outbuilding would be clad with horizontal shiplap boarding with random stone on the lower level. The roof would be covered with slate tiles.

Relevant Planning History

None

History of negotiations

Kirklees Development Management Charter together with the National Planning Policy Framework and the DMPO 2015 encourages negotiation/engagement between Local Planning Authorities and agents/applicants, this is only within the scope of the application under consideration. Amended plans have been sought and received which reduced the size of the outbuilding in terms of its width and depth together with reducing the lower level accommodation. As the amendments reduced the scale of development, the amended plans have not been advertised.

Representations

The application was advertised by neighbour letters, which expired on 19/12/2024

As a result of the above publicity, no representations have been received.

Denby Dale Parish Council have been notified and have responded with no objections.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is Green Belt on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 30** – Biodiversity
- **LP 57** – Extension, alteration or replacement within Green Belt

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS)

first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 13 – Protecting Green Belt land
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

Assessment

Principle of development:

The site is located within the Green Belt on the Kirklees Local Plan Proposals Map. As such a key consideration will be its impact on the Green Belt and it will be assessed having regard to Policy LP57 and NPPF chapter 13. In addition, the impact of the development on design grounds, residential amenity and highway safety will also be considered along with, biodiversity and all other material considerations and representations received.

Impact on Green Belt:

The NPPF identifies that the fundamental aim of Green Belt policy is to prevent urban sprawl by keeping land permanently open. The NPPF also identifies five purposes of the Green Belt. Paragraph 153 of the NPPF states that inappropriate development should not be approved except in 'very special circumstances'.

Paragraphs 154 and 155 of the NPPF set out that certain forms of development are exceptions to 'inappropriate development'. Paragraph 154 sets out that the extension or alteration of a building could be appropriate provided it does not result in disproportionate additions over and above the size of the original building. Policy LP57 of the Kirklees Local Plan is consistent with advice within the NPPF. Policy LP57 of the Local Plan relates to the extension, alteration and replacement of existing buildings in the Green Belt. In the case of extensions, it notes that these will be acceptable provided that the original building remains the dominant element both in terms of size and overall appearance.

Policy LP57 also outlines that such development should not result in a greater impact on openness in terms of the treatment of outdoor areas, including hard standing, curtilages and enclosures and means of access. Further to this, Policy LP57 states that with such development, the design and materials should have regard to relevant design policies to ensure that the resultant development does not materially detract from its Green Belt setting.

The erection of an outbuilding to a dwelling can be considered as an “extension” to the host building if it is closely associated with that building and as such may be acceptable in accordance with paragraph 153 of the NPPF and Policy LP57 of the Local Plan. This is provided it does not result in disproportionate additions over and above the size of the original building.

The existing dwelling has a volume of 385.91m³ and the proposed outbuilding would have a volume of 68.04m³. It is noted that there are no previous extensions to the property. The outbuilding would be located to the northeast side of the dwelling with a modest separation. The reduced scale from that originally submitted allows the main house to remain the dominant feature of the site and would not form a disproportionate addition to the property. The outbuilding would have no significant impact on the openness of the green belt and as such, is considered to comply with Policy LP57 of the KLP and Chapter 13 of the NPPF.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes on to state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

Paragraph 5.29 and 5.30 of the House Extensions & Alterations SPD considers an outbuilding can have as much of an impact on the appearance of a building as any extension. These should be designed to reflect the style, shape and features of the host property and be subservient in terms of the scale of the original dwelling.

The outbuilding would be located to the side of the dwelling and would be appropriate in terms of scale relative to the size of the main house and its grounds. The materials proposed include the use of shiplap cladding and random stone which would form a modern addition to the property in an area with no particular character and what limited development there is, has a variety of materials. Although the outbuilding would be to the side of the property with a degree of prominence from the lane, the main house would remain the dominant feature of the site. The outbuilding would also be similar to the main house with the provision of a lower ground floor workshop under part of the garage. The outbuilding is therefore considered to be acceptable in terms of visual amenity.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP

1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

There are no nearby neighbouring properties which could be affected by the proposed outbuilding.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Paragraph 135 (f) of the National Planning Policy Framework.

Impact on highway safety:

The proposals will not result in any intensification of the domestic use and would enhance the parking provision for the dwelling. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Biodiversity

The development is for an outbuilding in the grounds of the dwelling. Whilst the property is sited in area, which is known to include bat habitats, in this instance, given the nature of the works proposed, then it is considered unlikely to have an impact on the bat population.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Conclusion:

This application to erect a detached garage to the side of Clough House Lodge has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2024/92397

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays

08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Climate Change Statement	-	1055681	07/02/2025

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

Amended plans have been sought and received which reduced the size of the outbuilding in terms of its width and depth together with reducing the lower level accommodation. As the amendments reduced the scale of development, the amended plans have not been advertised.
