<p>The off-road parking initiative is a positive step, but I believe the area deserves more respect and thoughtful planning. For years, the land has been neglected, used for fly-tipping and left overgrown. It's unsightly and unsafe. By levelling it properly, we can transform it into a useful, clean space.</p> <p>Parking is a major issue here, and with more careful planning, we could accommodate two vehicles rather than one. Larger vehicles have parked here before without blocking pathways, so it's clear more space can be used.</p> <p>Concerns about light access are exaggerated. The lower window of number 168 has been boarded up for years, and neighbouring homes have permanently blocked their windows.</p> <p>This proposal will make the area safer and more accessible, especially for those with mobility challenges. It's time to clean up this space and make it work for everyone. A little effort could go a long way in improving our community.</p>
