

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

| | |
|----------------------------|---|
| Name of applicant/agent | Lee Parker |
| Site Address | 2 Rawthorpe Crescent, Rawthorpe Huddersfield HD5 9NZ |
| Description of Development | Extension to house |

Part 2: Climate Change Mitigation measures

| |
|---|
| Please respond to the following questions considering the measures set out in the Climate Change Guidance note: |
| Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2) |
| The extension will be constructed in matching materials and very well insulated |
| Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3) |
| All materials of construction will be sourced locally and the building works carried out by local craftsmen |
| Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4) |
| The client is intending to fit solar panels |

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

The design is compact extending across the existing side of the house and thus minimum heat loss and the construction will be fully insulated

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

The house is not in a flood zone

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

Water stress is not affected by the house

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

N/A

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

N/A.
