Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

☒ Yes

☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Application to raise the ground plane to the northern corner of the existing Market Place to provide an area of level grade. Shallow steps to be created to the corner. Where feasible, existing stone setts to be taken up and re-used. This will help to better facilitate the space for public and community use.

Does the proposal consist of, or include, a change of use of the land or building(s)?

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

There is no intention to change the overall use of the site. The application is to help facilitate the space for public use (market/ events etc) by modifying the ground plane to create a level are of grade and shallow steps. Currently the site is set to a steep gradient which can limit the types of events possible on the site.

The applicant already had permitted development rights for a previous (but not implemented) scheme on the site which incorporates area of terracing and raised planters/ water.

Details of the pre-application advice received

That an application for Lawful Permission should be submitted to understand whether the works are considered to be permitted development or if a planning application is required for the works.
Advised that other matters to be considered include accessibility, aesthetics (Conservation area), crime (ASB/ counter terrorism) and land stability (Coal Authority advice).

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
