Hi,

I am writing to register my support for planning application 2024/62/92598/W. This is an excellent proposal to incorporate sustainable architecture on a brownfield site in a way that's in keeping with the existing character of Marsden.

The designs for this home also center accessibility, which will ensure a long term improved quality of life for a disabled Marsden resident - a highly valuable outcome, of which I am fully in favour. The application is thoughtfully compiled, taking into account flexible access needs for the resident's progressive disability, which will provide meaningful impact for them, and any other residents to come in time.

This home will benefit not only the lives of its residents, but the character and environment of the local area too, as this plan thoroughly utilises conscientious practices.

Many thanks,
