Date: 16-Dec-2024
Our Ref: 2024/92601

Dear Sir/Madam

**TOWN AND COUNTRY PLANNING ACT 1990
TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT)
(ENGLAND) ORDER 2015
NOTIFICATION OF PROPOSED CHANGE OF USE AND BUILDING OPERATIONS
APPLICATION NUMBER: 2024/92601
AT: barn south east of, Lepton Lane, Lepton, Huddersfield**

I refer to your submission of details relative to the proposed change of use and any building operations as described below which was received by the Local Planning Authority on 01-Oct-2024.

Prior notification for change of use from agricultural building to one dwelling with building operations

The proposal as submitted is acceptable and, subject to all works being carried out in accordance with the description contained in the notification, prior approval is hereby granted.

The development shall begin within a period of three years beginning with the date of this letter.

1. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP22 and LP24, of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

2. Before development commences, details of storage, bin presentation points and access for collection of wastes from the dwelling hereby approved shall be submitted to and approved in writing by the Local Planning Authority. The approved details shall be provided before first occupation and shall be so retained thereafter.

Reason: In the interests of amenity and highway safety and to meet the requirements set out in Local Plan Policy LP24 part d(vi).

3. Before the dwelling is first occupied a dedicated parking area for two vehicles to serve the dwelling hereby approved shall be provided within the indicated curtilage as shown outlined in red on the submitted block plan and retained thereafter.

Reason: In the interests of amenity and highway safety and in accordance with Policies LP21 and LP22 of the Kirklees Local Plan.

4. Development shall not commence until actual or potential land contamination at the site has been investigated and a Preliminary Risk Assessment (Phase I Desk Study Report) by a suitably competent person has been submitted to and approved in writing by the local planning authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 178 and 179 of the National Planning Policy Framework.

5. Where further intrusive investigation is recommended in the Preliminary Risk Assessment approved pursuant to condition 4, development (other than those required for a site investigation report) shall not commence until a Phase II Intrusive Site Investigation Report by a suitably competent person has been submitted to and approved in writing by the local planning authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 178 and 179 of the National Planning Policy Framework.

6. Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition 5, development shall not commence until a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the local planning authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 178 and 179 of the National Planning Policy Framework.

7. Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition 6. In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the local planning authority shall be notified in writing within 2 working days.

Works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the local planning authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 178 and 179 of the National Planning Policy Framework.

8. Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Validation Report shall be submitted to the local planning authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for the site in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Validation Report in respect of those remediation measures has been approved in writing by the local planning authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 178 and 179 of the National Planning Policy Framework.

NOTE: Public footpath KIR/89/10 is the access to and adjacent to the development site and must not be interfered with or obstructed, prior to, during or after development works. The Council's public rights of way unit may be contacted by telephone 01484 221000 and ask for Sharon Huddleston. Public rights of way is based at PO Box 1720, Huddersfield HD1 9EL and the email address is publicrightsofway@kirklees.gov.uk

NOTE: The type and number of bins required should be in accordance with guidance supplied by the Kirklees Cleansing Department in the document "Waste Storage and Collection Guidance for New Developments" which is available at <https://www.kirklees.gov.uk/beta/planning-applications/guidance-and-advice-notes.aspx>).

NOTE: All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2019. Reports must be prepared in accordance with the following guidance:

- *Land Contamination Risk Management (LCRM)*
- BS 10175:2011+ A2:2017 *Investigation of Potentially Contaminated Sites. Code of Practice*
- *Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020* by the Yorkshire and Lincolnshire Pollution Advisory Group.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00 hours, Saturdays
With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate.

Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule:-

Plan Type	Reference	Version	Date Received
Location Plan	-	-	1/10/2024
Existing Elevations	-	-	1/10/2024
Proposed Elevations	-	-	1/10/2024
Proposed Floor Plans	-	-	1/10/2024

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application. No discussions or negotiations with the agent were necessary during the course of the application.

Development within a Coal Mining Area

The proposed development lies within an area that has been defined by the Coal Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

It is recommended that information outlining how former mining activities may affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), is submitted alongside any subsequent application for Building Regulations approval (if relevant).

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

Digital Infrastructure: Fibre To The Property (FTTP)

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

Note: The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

Note: Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

Customer Feedback

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Yours faithfully

Mathias Franklin
Head of Planning and Development
