Dear Planning officer

I am writing to you to oppose planning application number 2024/92626 which is a change of use of equine buildings into a dwelling house. This land is next to mine and is in the green belt, when the horse stables were erected the planning application for them was turned down. One reason was they are directly below high voltage wires. I don't mind farm buildings in the green belt, but dwelling houses are a totally different thing.

Yours truly
