<p>Please consider this objection. I object as there is a monkey puzzle tree under a TPO at this site and no information to confirm it is being retained or will be protected. Work has already started near the roots of this lovely tree. I also have concerns about highway safety and the children that play on tinker lane and use this route for school. Parking is already bad on tinker lane and more vehicles on this route could be a risk. I also have concerns about over development and the nearby properties and has the planner also considered the proximity to the conservation area? For these reasons I object. Thank you.</p>
