Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
There is insufficient very little detail on this application, where is the parking, turning, garden. What are the materials? no bat survey has been submitted. Access is only 4M wide and is serving more than four homes without passing places and visibility onto the road looks very tight, I am concerned this will affect the highway safety near my home. I was also advised by a planning consultant that this building is too large to be converted into a home under a Class Q.
