Registering and objection to 1 element of the planning application submitted. Within the plans it's stated concrete roofing tiles will be used to ensure the build is in keeping with the surrounding properties. The surrounding properties have slate roofing tiles. The plan should be correct to use the correct in keeping tiles. Within the plans there is no mention of how building materials will be brought on to site. The road that runs round the back of the property is for use by residents and not for commercial vehicles. I would ask the plans are updated to include details specifying all building materials and commercial vehicles will access the site via the side of no51 Turnshaw Road.
