

Notes

Asbestos Shading Information

 Asbestos present (See survey report)	 Asbestos free (Post 2000 construction only)
 Asbestos not found (See survey report)	 Area not surveyed (See survey report)

Disclaimer

Within the scope of the survey all reasonable efforts were made to identify ACMs. However, asbestos is sometimes concealed within the fabric of buildings and is impossible to identify during surveys. Therefore, it must always remain a possibility that further ACMs may be discovered. Plans must be viewed in conjunction with the full written report. All works must be undertaken in line with the CAMP and PAMP.
