<p>The level of recent development in Cleckheaton has left a serious issue with infrastructure in the town and this application will worsen the situation.</p> <p>Specifically, there is real concern that no additional doctors and dentists have been provided to address the additional housing numbers and residents are already experiencing issues in accessing medical and dental provision in the town and that this proposed development will only worsen this already very serious situation.</p> <p>Additional housing in the area would increase traffic and congestion on the surrounding roads and impact pedestrian safety.</p> <p>If this beautiful green space gets built on, it will put the wildlife that lives on the land at huge risk. This will force and push them out of their natural habitat.</p>
