<p>This is a fantastic green space/ field, one of the only ones left in Cleckheaton and this build would massively impact this.</p> <p>There is also already some houses that are being built not far from this site off Westgate but the land is adjacent to this and I question if Cleckheaton needs both. This other site is managed by Strata homes and this is for 180 homes. We already have a lot of building work for houses less than a mile away- off Kenmore Drive (80 new homes) and then at the Barrant estate on Whitechapel road (the site is 4.5 hectares) which is yet more houses, all impacting schools, doctors, dentists, etc which are already stretched and at capacity.</p> <p>The actual building of housing estates create so much stress- traffic, noise, mess on the roads, huge pieces of machinery that travel through our small roads at inappropriate times. I've had first hand experience of all due to the other building mentioned as my children go to the school nearby.</p> <p>There will be a massive impact on road infrastructure, which is already busy on Hightown road, and through cleckheaton and the Spen lane cross roads. It wasn't made for the amount of traffic which travels through it.</p> <p>There will be an impact on wildlife which will habitat the green space and environmental for air pollution and noise as well.</p> <p>Schools are already over stretched and there is only one secondary school which serves this area.</p>
