<p>Building these houses will effect the natural environment as the open fields attract a large amount of wildlife and the space is enjoyed by local residents. The design of the houses is not in keeping with the streets they are building off and will look out of character for this area. The extra vehicles will cause lots of noise and disruption whilst been build but also when the homes are built to all the local residents on the streets that are cul de sacs turning into access roads. The impact on the highways in the local area will have a major increase in traffic resulting in more pot holes and damaged roads within our area. The building of these homes will effect the over all look of our street and destroy the natural quite environment that was created over 50 years ago.</p>
