Subject: RE: Attached letter from Kirklees Council regarding application number 2024/92727 at location Land adjacent to, Ashbourne Drive, Liversedge

Having established that this proposed site is in the Liversedge and Gomersal ward where there are no higher than the Kirklees average health indicators (nor is the location on the index of multiple deprivation) it does not need submission of a Rapid Health Impact Assessment even though it meets the PH threshold of over 50 dwellings.

Kind Regards
Louise
