Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
From a personal point of view, i am asking, please do not allow this proposed building to go ahead! I am writing this email in objection as someone who works for emergency ambulance service, who works shifts and needs to sleep during the day. I have listened to and been woken up by the building works and the incessant reversing beepers of trucks etc, going on at the bottom the field (site off westgate). A building site, literally in my back garden will be so detrimental to my health and the health of my patients, and the ability for me to do my job! I have previously commented on the planning permission with concern for wildlife, traffic, noise, invasion of privacy etc, but now feel that after over a year of putting up with the development off westgate, i need to make this objection!
