Dear Planning Officer, I am writing to express my full support for the planning application referenced above. After reviewing previous applications and the objections raised, it seems clear that there are no substantial grounds for opposition to this proposal. The development has the potential to bring the premises into positive use, benefiting not only the immediate area but also the wider community. Bradley Road is undergoing continuous regeneration, and the presence of multiple businesses along this route is a testament to its vibrancy and economic potential. While it is true that Bradley Road experiences a considerable amount of traffic, I believe that this application would not contribute to any additional congestion. The road serves as a main artery into and out of Huddersfield, hosting a well-established high school, a development park, a farm shop, and a petrol station, among other facilities. Therefore, increased traffic should be expected during peak hours, particularly on school days. However, during school holidays, we do see a natural reduction in traffic levels. I am particularly in favour of this application as it is designed to be situated away from the main road, thus minimising any potential noise pollution. Additionally, it seems apparent that the objectors to this application are not directly impacted, considering the premises in question are private. In summary, I wholeheartedly support this planning application and believe it will enhance the area by bringing important facilities into use without significant detriment to the surrounding environment or community.
