Dear Sirs

Please find enclosed an application for a retrospective planning application for detached hairdressing salon for Mrs V. Priestly, at & Popplewell Lane, Scholes.

The salon is shown on the enclosed drawings and photos. It was built and opened as a small, quiet place for the residents of Scholes to have their hair done. The salon opened on 26th September 2021. It was opened to create a service much needed for people nearby to walk to, for hairdressing and no cars visit the site apart from dropping off elderly people.

There is only one salon in Scholes and elderly clients are the main.

The salon is only part time .

Thursday, 8am til 3pm

Friday, 8am til 3pm

Saturday 8am til 1pm

The clients are a mixture of people, male, female and children. And it has been indicated to everyone not to travel to the salon by car, there is a polite notice up.

There is an area to the front of the salon which belongs to the immediate neighbour and full permission was given to access over this.

In conclusion the salon is a discreet, quiet small attractive building to go to, providing a very necessary service within the community, and provides a salon where the local people dont have to travel far. The salon does not generate noise and has no cause for concern in the past three years.

Regards Gary Sutcliffe
