| <p>I am concerned about the effects of parking locally, especially as the visibility up Cowlersley Lane, when exiting Richmond Court, is restricted even when no cars are parked and positively dangerous when cars are parked above the exit, on the right hand side going up. Also, parking for residents on Richmond Court is already at a premium with not enough parking for residents as it is. Parking is already an issue at drop off and pickup times for the out of school club, with cars often parked illegally and dangerously. I would like to ensure that additional parking for the taxis should the application be granted, to be restricted only to the off road car parking, and not to be allowed either on Cowlersley Lane or Richmond Court.</p> |     |
