We object on the following basis . Children and traffic do not mix well ,there will be extra vehicles going in and out of the entrance to Cowlersley Court . There will be extra traffic on Cowlersley Lane and extra vehicles parked on said lane ,the traffic and parking is already out of hand , every time I drive out of Richmond Court we take life in our hands ,there are vehicles parked left and right of the end of Richmond Court right up where the road curves . on the left parked on the wide pavement ,so the view is restricted ,making it unsafe to exit , if this is aloud to go ahead it will make matters worse. Next this is a residential area ,there will be noise of car doors been opened and closed ,engines started up and engines been revved all up to 2.00am ,every night as the business is opened 7 days a week ,bearing in mind that there is a number of houses close at hand some as close as approx 20 metres how are we going to sleep in summer we will not be able to open our windows , also there will be the light from the office till 2.30am every day ,that is if it does close at the stated time.
