<p>I'm concerned about the impact on Badger Gate, the lane which runs from Golcar Brow Rd to Sefton Lane, behind the proposed property. The lane has been used by pedestrians for many years, probably providing access to the local mills. There is limited vehicle access as far as number 12, Badger Gate, but then the lane narrows significantly, with walls to both sides and woodland to one side. At the end of the lane is a narrow footbridge over Meltham Dike, which is a tributary to River Holme. A delivery van recently got stuck in the mud down there, causing disruption. If builders' vehicles and heavy machinery were to access this lane, I believe the impact on the local environment, waterway and wildlife would be significant. It could also be unsafe for the many pedestrians who use the lane.</p>
