<p>We have a strong objection to the proposed dwellings on two counts: First, the planned access onto the A629 is already the site of numerous, very serious accidents and this proposal would only worsen an already dangerous and untenable situation. We also note that both the local councillor and MP have already expressed concerns about this section of road. Second, the land in question is a haven for wildlife including bats, owls, and bullfinches. There are numerous mature trees with prospective tree protection orders. Wildlife is already under extreme and dangerous pressure and our collective focus should be on preserving green spaces to protect wildlife- not destroying ever more natural habitats.</p>
