Advertisement Consent for erection of illuminated signs

Responding Date:
8th November 2024

Responding Officer:
SR

Responding Ref:
WK202434722

Comments

We have reviewed the application and supporting information, we offer the following comments. The application concerns static signage for a new retail store, comprising; one flagpole backlit illuminated sign, two backlit store signs and one billboard using posters that will be lit from above only. The development is located at a major junction on the edge of the town centre which has high background levels of lighting.

Environmental Health only consider the impact on residential amenity, having reviewed the information provided we have no objections or recommendations to make.
