Good afternoon Liz,

I hope you're well.

Please see attached drainage survey CCTV requested by Paul Farndale (via our drainage engineer) to confirm the new connection had been made without causing damage to the existing culvert.

The survey was completed and submitted on 4 July 2025; however, we did not receive any acknowledgement confirming receipt.

Going forward, I would appreciate it if any requests for additional information could be sent directly to me and/or the client, as information does not always appear to be passed on by the engineer.

Many thanks in advance, and I look forward to hearing from you.

Kind Regards
