<p>This is a further application to the one which was unsuccessful and I see little change. I have an interest as I visit friends in this area and I am aware of the distress the current activity is having yet alone the proposed plans.</p> <p>The applicant is currently working on the site and has shown little regards to his neighbours and the environment, this should evidence how the applicant would behave if given permission to exceed current works. The site looks a mess now.</p> <p>The works have been disruptive and noisy with the applicant commencing and finishing work at unsociable times.</p> <p>The proposal will impact on the environment and the general aesthetics of the area and fails to be at all harmonious.</p> <p>The structure is out of kin with the rest of the residents.</p> <p>The only person who will gain is the occupant by imposing his build on others. The light to his neighbours will be diminished and the extension will blot the landscape.</p> <p>The extension is on the boundary of the neighbouring properties and will impact on their privacy and enjoyment.</p> <p>The only gain is to the applicant to have more space, but this is at the cost of the people who live and visit in the area.</p> <p>The wants of the applicants should not override the damage to the environment and the enjoyment of the area for the majority.</p> <p>I would respectfully ask you to reject this application again, the modifications take the application no further, but do show the applicants determination to impose his way on the area.</p>
