I live very close to this property, therefore I know the area very well. I fully support this planning application. There have been a number of extensions carried out in the estate, including a very large extension on the property immediately next to 1 Chadwick Crescent, ergo the applicant is not asking for something that is unusual to the area/neighbourhood. This extension will help the family to live in the same house and neighbourhood and continue to have stability and comfort in their lives, instead of moving to a new area, which may bring disruption to their educational and social needs. The work that is being undertaken is causing no disruption to the neighbours and is being completed professionally. It will be a good addition to the neighbourhood and will improve aesthetics. The plans will have no adverse affects on the immediate neighbouring houses and the local area. I see no reason for anyone to object to this application
