Policies

The site has no policy-based constraints in respect of Permitted Development. As such the application falls to be considered under the relevant legislation as follows:

The Town and Country Planning Act 1990 Section 55 and the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

Assessment

The main considerations in the determination of this application are:

1. Whether the proposed development would constitute development as defined by section 55 of the Town and Country Planning Act 1990 and the Town and Country Planning (General Permitted Development) (England) Order 2015;
1. If so, whether Permitted Development rights apply to the property; and

2. Whether the proposed development falls within permitted development under the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), Schedule 2, Part 1 (Development within the curtilage of a dwellinghouse), Class B.

The proposal comprises the erection of a rear dormer and the extension of the existing roof from hip-to-gable.
