<p>As a resident of the local community living close to this masjid/madrassa facility, I wholeheartedly support this planning application.</p> <p>The current premises provide an excellent service and have added to the lives of the local community through the provision of prayer facilities in congregation as well as several other beneficial programmes and madrasa facilities for young children after school.</p> <p>However, with the growing population of the local community making use of these facilities, these premises need a complimentary increase to accommodate the growing current and future needs. This will help the community to avail the facilities locally and avoid/reduce car journeys outside the area.</p> <p>The increased car parking facilities will also resolve the street parking issue as the proposed number is more than double the current number of spaces. The greenery reflected within the plans is also a plus point as presently, it is limited around the current site.</p> <p>Additionally, the proposed redevelopment with a modern look will also add to the character of the area as opposed to the current outdated industrial units besides the masjid/madrassa.</p>
