<p>Stuart has been on this site since 1996 and has done everything possible to make the area safe for everyone. He helps with anything he can and is always friendly. He has made the area better by work on the unadopted lane and makes the area look better by general upkeep and maintenance. Good luck for the future!</p> <p>Just a shame people are parking on the lane where access is narrow risking damage to residents and business owners vehicles who use the lane for access to business and home. Including trailers and bin wagons.</p>
