I am very concerned about the impact of these potential changes to access to Spa lane. It is very narrow and unsuitable for large vehicles. It is a primary walking route to Slaithwaite and is used by many people, young and old alike. It is also access to the Spa Park and is used by parents and children. Access is difficult when cars use the lane and the intended changes are for much larger vehicles. The current access is difficult for pedestrian access when the various HGV vehicles come down, and there are many of them. These changes would have a very negative impact on pedestrian use of Spa lane. It would restrict access and be unsafe.
