

## **Appendix A – Climate Change Statement**

### **Climate Change Statement for Planning Applications**

#### **Part 1: Applicant details**

Name of applicant/agent	Mr O Nurse
Site Address	65A Westgate, Almondbury, Huddersfield, HD8 5XF
Description of Development	Conversion of the existing ground floor garage and alternations to the first floor to create a 2-bed property.

#### **Part 2: Climate Change Mitigation measures**

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Low level lighting, thermal insulation in external walls, roof and floor.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Contractor to source materials locally, wherever possible. Materials ordered as and when required to reduce waste onsite.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Materials to be used within the proposed works to be recyclable, where possible.
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
The proposal will need to comply with Part L2.
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
Flood risk does not apply to this site / application.
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
Use of water butts to collect rain water and re-used on surround gardens.
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
None
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
None
